MISSION

AAC's mission is to enrich the lives of children by creating a learning-rich educational environment that promotes and develops their imagination and guides them to discover their own creative skills and talents. We make learning relevant and exciting for students, as we continually draw connections between what they learn in the classroom and the real world. Perhaps most importantly, we encourage our young people to reflect on their learning—and to act on it in the service of others. We believe learning must be for action and impact.

PROGRAMMING

We has delivered the very best in visual arts classes for kids, summer art camps, holiday art camps, art parties and art events in schools, community sites for kids. A team of experienced artists and educators design the AAC curriculum. The program simultaneously develops educational and artistic skills.

The classes integrate the use of the Spanish language with subjects such as Early Literacy, Art, Music and Movement, Drama, Math, Construction & Design and STEAM. Classes are taught in a fun bilingual setting, no matter what level they're at.

We provide an environment where students can build their art and spanish skills over time by attending classes with the same instructor, and allowing that particular art instructor to develop a relationship with each individual student in order to enhance the learning process.

Our operating policy for the program maintains a maximum staff/child ratio of one to nine in the kindergarten program and a maximum staff to child ratio of one to ten in grades one through five. Background checks are performed on all staff members.
